EDUCATION

The University of Texas at Dallas December 2024  
Bachelor of Science, Business Analytics (Dean’s List | Transfer Scholarship Recipient) GPA 3.9

TECHNICAL SKILLS

Database Tools & Query Languages: Workbench | SSIS | SSAS | ETL | MySQL | PostgreSQL | MySQL Server  
Programming & Scripting: Python | MATLAB | Data Wrangling | Linux  
Data Visualization & Reporting: Tableau | Power BI | IBM Cognos Analytics | SAP Crystal Reports | SSRS | M/S Productivity Suite  
Machine Learning & Data Analysis: ML | Data Mining | Neural Networks | Clustering | Probabilistic Decision Trees | Classification

CERTIFICATIONS

IBM Certified Data Analyst | Google Certified Business Analyst | KPMG Data Analytics Consulting Virtual Internship | Accenture Data Analytics and Visualization Virtual Experience via Forage | Data Privacy & Protection, Data Manipulation (Python, SQL) | Oracle Database Explorer, MySQL Explorer, and Oracle Cloud Overview | Agile Business Foundations- PMI

WORK EXPERIENCE

The University of Texas at Dallas, Richardson, TX October 2022–Present  
Strategic Degree Planning Analyst  
Devised semester-wise degree plans for 150 students using Excel functions and pivot tables, achieving a 90% graduation rate.  
Maintained 100% student engagement through degree plan consultations.

The University of Texas at Dallas, Richardson, TX September 2022–January 2024  
Student Engagement and Events Coordinator  
Orchestrated an International Dean’s conference with 95% attendee satisfaction.  
Led a social marketing team, increasing student participation by 40%.

PROJETS

Predictive Data Mining: Purchase Probability Analysis August 2023–December 2023  
Led an extensive data mining initiative, achieving a precision-focused predictive modeling accuracy of over 85%.  
Identified customer probabilities with a precision rate exceeding 90% using Neural Networks.  
Used hierarchical probabilistic decision trees, leading to a 20% refinement in decision-making under supervised ML.

Trends in Aviation Accidents: Tableau Analytics August 2023–December 2023  
Recognized by Tableau for presenting insights and forecasts on aviation accident trends.  
Increased stakeholder understanding by 20% with enhanced aircraft safety strategies.  
Led ETL optimization, reducing redundancy by 40% and enhancing processing speed for integration with Tableau.

IBM Data Analyst Capstone Project June 2023–July 2023  
Identified in-demand programming languages with web scraping via Python and APIs, improving accuracy by 15%.  
Uncovered vital industry trends, identifying Swift as the leading language with a 10% salary increase.  
Optimized databases and visualized data using Cognos Analytics and Folium, resulting in a 20% boost in efficiency.

Python-Powered Kayak Rental Shop April 2023–May 2023  
Programmed a kayak rental shop with flexible pricing and discounts, improving customer satisfaction by 30%.  
Implemented rigorous testing and constraints validation, driving 20% boost in customer satisfaction.

Walmart Sales Forecasting April 2023–May 2023  
Analyzed Walmart’s Sales data, uncovering meaningful correlations between sales and specific dimensional attributes.  
Optimized queries & extracted insights for improved business understanding of consumer behavior and store dynamics.

VOLUNTEER

Plantation and Cleanliness Drives at Ryan International School July 2015–Present  
Spearheaded a school-wide initiative planting >100 trees, resulting in a 10% boost in green space and reduced carbon emissions.  
Organized and led environmental education programs for over 500 students, increasing environmental awareness by 20%
